

Yejun Amy Kim

email: kimyejun219@gmail.com
website: yejunamykim.com
status: US Permanent Resident

Education **Georgia Institute of Technology** Atlanta, USA

Aug 2017 - Aug 2022

Bachelor of Science in Computational Media 3.92/4.00

Minor in Industrial Design 3.80/4.00

Experience **Research Assistant @ CoDe Craft Group, Georgia Tech** Atlanta, USA

May 2022 - present

Making Computing Visible & Tangible

- Designed a kit of materials and parts to support inclusive computing education.
- Developed and managed all code programmed into the microcontroller.
- Facilitated online workshops with users in under-represented locations in Arizona.

SwellSense

- Developed a design editor for the fabrication technique to screen print stretchable circuits.
- Managed a workshop for technical and user evaluation to validate the basic performance of SwellSense technique and the design editor.

Front-end Developer @ zoslee studio Daejeon, South Korea

Mar 2021 - May 2021

- Designed and developed company website.
- Collaborated with designers in strategic implementation of promotional websites.

UIUX Design Intern @ AKA AI Seoul, South Korea

Sep 2020 - Mar 2021

- Designed robot, web, and mobile application interface for an English education AI engine.
- Ideated and managed promotional materials for v.2 launch.

Intern Designer @ Simtigrate Atlanta, USA

Sep 2017 - May 2018

- Designed patient room for medical facilities that meet needs of workflow efficiency and hygiene.
- Organized experimental data from user research and ward simulations.

Skills **Tools**

Adobe Suite, Figma, HTML, CSS, Wordpress, Google Forms & Analytics, Firebase, Arduino
Programming Languages: C, C++, Python, Java, Javascript

Hard Skills

Design Thinking, Design Research, Design & Experience Mapping, Prototyping, Wireframing, Frontend Programming

Soft Skills

Empathizing, Effectively Communicating, Collaborating, Curious, Creative, Flexible, Proactively Listening, Thinking Critically

Awards **nokoin @ HackGT8** Atlanta, USA

Nov 2021

HackGT8 Best in App/Web Development & [NCR] Best Use of Cryptocurrency Award

An alternative approach to dealing with unwanted coins. POS system that turns change into cryptocurrency and deposits it into the user's crypto wallet.
